## **DETAILED ACTION**

### ***Status of Claims***

Claims 1, 2, 4, 7-13, 15, 18, 21, 22 and 26 are pending in the application. Receipt is acknowledged of amendment / response filed on October 10, 2002 and that has been entered.

### ***Examiner's amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Francis Ginah on August 6, 2003.

The application has been amended as follows:

- a. In claim 1, line 3, page 109, delete "derivative".
- b. In claim 26, line 1, page 116, delete "Use of a" and insert with --A--.

### ***Reasons for allowance***

The following is an Examiner's statement of reasons for allowance:

Bach et al. (US Pat No. 5,684,034) teach a class of 1-indole-3-acetamide compounds that are useful for inhibiting sPLA<sub>2</sub> mediated release of fatty acids. The instant compound differs from the prior art, which is further substituted by different variables such as acylamino acid linker (R<sub>4</sub>) that is attached directly to the indole core structure. The prior art compounds neither teach nor render obvious the instant claimed compound and there is no suggestion or motivation

to modify the compounds of other prior art to obtain the instant compound. Therefore the instant claims are allowable over the prior art of record.
